Security Analyst at a Florida credit union: threat hunting, 24-hour zero-day remediation, phishing defense, and identity management, with risk metrics held below enterprise averages.

EXPERIENCE

Security Analyst · Addition Financial Credit Union Oct 2026 - Present

- Lead threat hunting and incident investigation across SIEM alerts, case reports, and CrowdStrike Falcon detections, driving every case from triage to containment and closure.
- Own critical and zero-day vulnerability remediation through Automox and ManageEngine, authoring custom scripts that automate patch deployment across the enterprise.
- Run adversary simulation with Picus Security to penetration test the environment, exposing control gaps and validating fixes before attackers can exploit them.
- Serve as Proofpoint administrator investigating user-reported phishing through Exchange, and run KnowBe4 phishing campaigns that sharpen employee detection.
- Keep phishing and vulnerability metrics below enterprise averages by leading security awareness training, publishing weekly security briefings, and conducting daily threat research.

IT Technician · Addition Financial Credit Union Mar 2025 - Oct 2026

- Supported one of Florida's largest credit union mergers: 12+ departmental restructures, 7 branch integrations, and 220+ employees onboarded without disrupting operations.
- Remediated critical and zero-day vulnerabilities within 24 hours using CrowdStrike Falcon and ManageEngine Patch Manager, maintaining full SLA compliance.
- Administered IAM across Active Directory, Entra ID, Azure, Microsoft 365, SharePoint, and Adobe, securing onboarding, offboarding, and privileges.
- Served as IT lead on the company Summit Committee, hardening event devices and running A/V for the first all-company gathering since the merger.

Head of Collections & IT Support · All Roofing & Construction Jul 2022 - Mar 2025

Ran collections ($350K+ collected in one week) and office IT; built the company file system and training docs; notary, designer and video editor; 100+ five-star reviews.

IT Help Desk Technician · Advanced Dermatology and Cosmetic Surgery Dec 2021 - Jul 2022

Supported 150+ locations at 40-50 tickets a day; on the acquisition team building out new sites; imaged hundreds of endpoints; AD and GPO.

EDUCATION

Associate of Science (A.S.) & Technical Certificate

Seminole State College · Graduated May 2023

President's List, multiple semesters

PROJECTS

- **Cloud Security Homelab:** Azure + VMware lab with Wazuh and Grafana monitoring and AI alert summaries
- **Honeypot & Threat Research:** T-Pot honeypot capturing live attacks, analyzed in Kibana and CyberChef
- **Home Network Rack:** 6U rack, Ubiquiti switching, Synology NAS, VLANs and Pi-hole DNS
- **Hardened Minecraft Server:** public modded Ubuntu server with SSH, firewall, whitelist, RBAC and AMP

SKILLS

Security Operations: CrowdStrike Falcon, SIEM, Threat Hunting, Incident Response, Picus Security, Proofpoint, KnowBe4, Phishing Analysis

Vulnerability & Endpoint: Automox, ManageEngine Endpoint Central & Patch Manager, Patch Scripting, Asset Management, Sysinternals

Identity & Cloud: Microsoft Entra ID, Active Directory, Group Policy, Azure, Microsoft 365, Exchange, SharePoint

Infrastructure & Tools: VLANs, Cisco IOS, Linux, VMware, Docker, Wazuh, Grafana, Jack Henry Symitar, Agile/Scrum, Adobe Photoshop & Premiere Pro
